Prince George

the city of Prince George is the largest and most important point in Central British Columbia. It is a passenger and freight divisional point on the G.T.P. Ry., midway between Prince Rupert and Edmonton, Alberta, and at the junction of the Fraser and Nechaco rivers. Is served also by steamer in summer and stage during winter from Ashcroft, via the Cariboo road. Is the outfitting and distributing centre for the extensive mining and lumbering districts in Central British Columbia, distribution shipments being made east to Jasper, west to Smithers and south into the Cariboo. Is in the Fort George Provincial Electoral District. Office of Peace River District Registrar of the County Court. Has G.T.P. telegraph, local and long distance telephone connections. Anglican, Presbyterian and Roman Catholic churches. Population, 1,850. Local resources: Farming, mining, lumbering and fur trapping.

Prince Rupert

is the Pacific terminus of the Grand Trunk Pacific Ry. Co., situated 550 miles north of Vancouver, and 40 miles south of the Alaskan boundary. It is in the same latitude as London, and has a climate, the mean temperature of which is about the same as that of the metropolis of the British Isles. It is 500 miles nearer the Orient than any other port on the Pacific Coast, and is two days nearer the Yukon and Alaska than any other Pacific Coast city.

It has office of Prov. Govt. Agent, Assessor and Collector; Gold Commissioner and Mining Recorder, Skeena and Bella Coola Mining Divisions, and Commissioner Skeena Land Recording District; Land Registrar, Prince Rupert District; District Engineer, Public Works Dept.; Agent Dom. Dept. of Indian Affairs, Naas District; Deputy Collector, Inland Revenue (Canada) and Collector of Customs; office of the Prince Rupert District Registrar of the Supreme and County Courts, and Prov. Chief Constable. Has public and high schools.

Having a tri-weekly service of fast through passenger trains from the Atlantic Coast, alternating with fast through freight service, it is the controlling factor in the Canadian Yukon and Canadian Alaska trade, as it will also be for the Orient trade in the near future.

Preparatory to this the railway company, in conjunction with the Dom. Govt., have completed and are now operating the largest floating dry dock in America, covering 22 acres, at a cost of $3,000,000; as well as laying out terminal facilities and trackage accommodations at a cost of $2,750,000. In addition to this, they have pledged themselves under a ten-year agreement with the city, dated June 8, 1911 (as part consideration of the city accepting $15,000 per year to cover all taxes), to "commence and complete within reasonable time" terminal buildings costing $1,500,000, and an hotel to cost $2,000,000. Already plans are complete and foundations excavated. Owing to the war conditions, superstructure of these undertakings has been temporarily held up, but we have the assurance of the president of the company that these works will be continued and carried to completion directly capital is available.

The Dom. Govt. have also purchased land and excavated a site for a post office, to cost $250,000, and an armory to cost $150,000, land for which was given them by the city. They have also erected a quarantine and marine station with concrete dock, which cost $175,000, and the Prov. Govt. have also prepared a site upon which to erect a permanent court house and administration building to cost $250,000, part of which is in the estimates for this year. The Imperial Oil Co. have also leased from the G.T.P. Ry. Co. 8¾ acres of land, upon which have been erected oil storage tanks, which cost $200,000, and are now operating all oil shipments from the wells to Prince Rupert, thence by rail to the East. The Prov. Govt. have erected a concrete wharf at a cost of $270,000, which they are now operating.

Prince Rupert Waterfront

The city has spent in development $765,000 in permanently grading the whole of the business section; it has established its own light, telephone and water systems at a cost of $680,000, which are operated as public utilities. These are self-supporting with the exception of part of the water system, which was only completed in 1915. Part of these charges were raised by special rate.

It is estimated the revenue for 1917 will provide for these interest and redemption charges, making the whole of these utilities self-supporting. The city has only $170,000 of non-productive debentures. The total actual indebtedness of the city is $1,777,947.73, out of which $921,608.73 are local improvements, $676,000 public utilities debentures, and the remainder non-productive. It will be readily seen, therefore, that the expenditure by the city is extremely small when compared with outside interests, yet the amount spent has enabled it to keep pace with other developments, as well as provide cheap light, water and telephones. The water supply is by gravity, and 1,650 horsepower of electric current

is generated. At the same time the water supply is estimated to take care of a population of from 50 to 60 thousand people, and another power site has been secured nearby, which will generate a further 10,000 horsepower for electrical supply when necessary.

The townsite contains 2,240 acres divided into 11,610 lots. The total estimated land valuation is $20,-908,505, of which $2,309,450 is exempt from taxation. The total land taxable within city limits is $17,-917,345, which includes G.T. Ry. Co. land, valued at $3,583,500 upon which they pay an annual fixed amount of $15,000 until 1921, leaving a net assessment upon which tax levy is annually made of $11,-596,295. The improvements are valued at $2,674,060, but are not taxed. In addition to this there are $359,600 improvements which are exempt. There is no floating debt. The total assets of this city, which include real estate and buildings, is $563,159.72 (which had a land assessment in 1915 of $1,300,925), also water, light and telephone, totalling $2,520,000. The tax rate for 1916 was 10 mills gross, which includes schools, money bylaws, special rates, and general administration. This was the lowest tax rate in Western Canada. A 10-mill rate will also be levied for the year 1917, and this, despite the fact that the assessment has been reduced by $2,500,000. The tax collection has an average of 69 per cent., for five years. Owing to a considerable portion of the townsite being held by outside capitalists of repute, a large percentage of which is improved, the city has practically a guaranteed tax collection of 60 per cent. of its annual tax levy, the remainder being made up by small holders, 10 per cent. of whom are prompt taxpayers.

The city has just completed a reconstruction scheme for the whole of its debenture issues, which has now been ratified by the Provincial Legislature in its entirety. Heretofore, all debentures were issued under the sinking fund plan. This has been superseded by the serial bond plan, which is made up of $106,000 ten-year, 6-per cent.; $74,-237,73 20-year, 6-per cent., and $1,540,000 30-year, 6-per cent. bonds, all dated April 1, 1916. The interest is payable half-yearly, and the first instalment of principal on April 1, 1917. In addition to the annual levies to liquidate these instalments, the government has authorized the establishment of a bond payment insurance fund, amounting to $65,000, to make as remote as possible default in interest or principal payments. In practice this has proven a great success, and is a splendid protection for purchasers of the city's securities, in addition to the credit of the whole city, as provided for in British Columbia statutes. As an evidence of the ability to meet the obligations promptly and with certainty, a comparison of 1914 levy and 1917 levy for local improvements and general debentures will place this beyond doubt. In the year 1914 the total amount raised for interest and redemption charges on local improvements and general debentures was $219,275. For local improvements, $145,643.66; for general debentures, $51,095; charged against utility revenues, $12,536.34. All interest payments were made promptly and sinking funds all intact. Since this, $90,490 short-term debentures have matured, and have been taken up, so that now the total levies for money debt, both local improvement and general debentures, is less than $150,000 per annum. With further development and consequent increased earning powers of the utilities, which are now apparent by the daily demand for more power, and the comparatively small outlay in developing the system, these utilities are bound to become a source of benefit to the city and district, and one may confdently look forward to the city of Prince Rupert as a city of low taxation, cheap water, light and telephone; the converging point and source of supplies for a district that will contribute wealth from great mines, inexhaustible timber limits, fertile valleys, and the world's greatest fisheries. Add to this the scenic grandeur of its inland and maritime highway, the delightful stimulating climate, and the surrounding beauties of the mountains; all these are Prince Rupert's, the Pacific end of the All-Canadian Transcontinental Railway.

Prince Rupert's main industries are fishing and mining. She is the northern centre for both these trades, which are rapidly increasing in importance. Fish curing plants, cold storage and ice-making, machine works, boat building, etc., are other lines followed. The fishing industry has had a remarkable growth, due to the fact that the strategic position of Prince Rupert makes the port the natural one of entry for fish products to the eastern markets, where quickness of delivery and short route are important points.

Industrial sites are available at fair rentals on the waterfront, with cheap power, light, water, etc., supplied by municipal plants. Labor is plentiful and wages are reasonable. Population 4,000.

Harry Hanson's Patented Hot Water Heater Coil

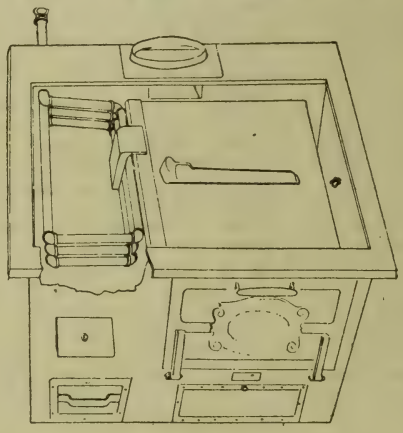
FAST HEATING COIL

installed in your kitchen range will give you all the hot water you can use within thirty minutes after fire is started.

Over one hundred and fifty now in use in Prince Rupert, and every user a booster.

You don't know hot water comfort until you have seen these results.

A bath supply within twenty minutes after fire is started and then a new supply every twenty minutes thereafter.



Wall radiators can also be run from your hot water boiler and other rooms heated with no extra cost of fuel.

To the many who already know the merits of this coil it may be well to state that recent improvements have been made in it that do not interfere with its patented principle. The coil is now made of brass, which is not only a better holder and conductor of heat, but has a greater endurance that the coil made of iron pipe.

It has now become in general use on boats as well as in homes, and gives great satisfaction. It earns this high appreciation, for it is capable of heating water four times as fast as any other coil on the market.

$20.00 is the cost. Absolutely no charge unless satisfactory. With a three-year guarantee, $25.00. With a five-year guarantee, $30.00.

The Result Will Surprise You—*Investigate*

See us for plumbing insurance. Oil burners installed in ranges. Chimneys cleaned. Pipes thawed by electricity.

PRINCESS CREEK

a steamer landing on Kootenay Lake, reached by C.P.R. Nelson-Kaslo route steamers.

Princeton

an important mining town lying 2,000 feet above sea level at the junction of the Similkameen and Tulameen rivers, 65 miles west of Penticton and 47 west of Keremeos, and 75 south of Nicola, in Similkameen Provincial Electoral District. It is the centre of a coal basin of approximately 42 square miles, with four workable seams aggregating 40 feet. The coal is bituminous and excellent for domestic and steam purposes. Is served by C.P.R. Kettle Valley line, and is the terminus of the Spokane-Princeton branch of the G. N. Ry. Has electric light, water, and local and long distance government telephones. Has Anglican and Presbyterian churches and public school. Population, 750. Local resources: Coal, gold, platinum mining, and ranching.

QUESNEL FORKS

a post office and settlement at the junction of North and South Forks of Quesnel River, 56 miles northeast of 150-Mile House, 180 miles north of Ashcroft, and 147 miles north of Clinton, in Cariboo Provincial Electoral District, reached by stage. Has office of Sub-recorder Quesnel Mining Division and Dominion Government telegraph. Quesnel Forks is the gateway to Quesnel Lake (100 miles long), Clearwater and Cariboo Lakes and famous Swamp River Meadows, and is the outfitting point for a district which has produced millions of dollars in gold. Outside of one or two white families, all residents are Chinese fur trappers. Local resources: Mining and ranching. Opportunities open to prospectors, hydraulic miners, dredge operators, etc. Gold quartz in abundance.
Grinder Grant general store and Deputy Recorder Prov Mines Dept

QUICK

a flag station on the G.T.P. Ry., 19 miles east of Smithers, in Omineca Provincial Electoral District. No agent or local residents. Telkwa is nearest post office.
Griffin Wm farming

QUIET COVE

a steamer landing on Limestone Island, midway up Quatsino Sound, west coast of Vancouver Island, on route of C.P.R. West Coast steamers. Quiet Cove contains about 8,000 acres of good soil, well watered and easily cleaned. There is a subdivision of 123 acres into acreage of 2½ acre lots, a splendid chance for any one wishing to start a garden and chicken ranch. On the south side of the Island over 300 fruit trees are in full bearing. The winters are extremely mild. The Central Hotel, owned by Cameron Investment Co., Vancouver, is for sale, and would make an ideal summer resort. Several ranches are vacant at present, owners being away at the front. Local resources: Small fruits, plums, prunes, crabapples, cherries, garden truck and lumbering.

RENATA

a post office and steamer landing on Lower Arrow Lake, 18 miles north of Robson, in Slocan Provincial Electoral District. Has Dom. Govt. long distance telephone, public school, good wharf and small store house. This is a very favorable location for fruit-growing, the holdings running from 5 to 15 or 20 acres, and the amount shipped is rapidly increasing. The Mountain Chief Mining Co. operate a mine on the mountain side about 2 miles distant, and are now putting in an aerial tram and will ship from this point very shortly. This is largely a Mennonite settlement.

RETASKIT

a railway siding on the P.G.E. Ry., 8.5 miles from Lillooet Provincial Electoral District. The nearest post office is Lillooet. No residents.

RETHEL

a railway siding on the P.G.E. Ry., 45 miles north of Squamish and 7.4 miles from Mons, in North Vancouver Provincial Electoral District. The nearest post office is Alta Lake. No residents.

RETREAT COVE

a post office and farming settlement at the north end of Galiano Island, one of the Gulf Islands in the Straits of Georgia, in The Islands Provincial Electoral District, reached by C. P. Ry. (Victoria-Ganges route) steamers and E. & N. Ry. at Chemainus, distant 9 miles. The steamboat landing is called Shaw's Landing. Nearest telegraph office is at Chemainus. Has public school. Population about 50. An ideal spot to live. Mixed farming is carried on; there are large salteries operated in the winter months for exporting herring to Japan and China. There are also many fish caught for Vancouver and Victoria markets, chiefly salmon and cod, by trolling. Exclusive of the settlers the land is held by the Western Fuel Co. They are willing to sell the surface rights and there is some private land for sale.

Revelstoke

with a population of 3,500, lies in the beautiful Columbia River Valley, surrounded by lofty and picturesque mountains, some clothed with trees and verdure to their very peaks, others crowned with rugged and rocky spires or glistening glaciers. Situated on the main line of the C. P. R., 379 miles from Vancouver, and 267 miles from Calgary, it is also the gateway of the Kootenay and Arrow Lake Districts—now famous as fruit-growing centres. Surrounded by vast areas of timber her lumber industries are second to none in the Province. With the completion of the Auto Scenic Road to the top of Mount Revelstoke, the beautiful River Road Driveway, extended 17 miles, and the many miles of splendid Government-built roads in the district, the lover of horse or auto can enjoy them to the full. As the Government have placed Mount Revelstoke in their park reserve, this auto road leading to the top of this mountain will be a world-wide attraction to tourists.

INVESTMENTS.

The 20,000 square miles of mineral lands tributary to Revelstoke probably contain as much mineral wealth as any similar section on the American continent, and its natural advantages for economical mining are surpassed by none. The principal minerals are gold, silver, lead, copper, zinc, iron, manganese,

chromium, tungsten, molybdenum, aluminum, barium, mercury, arsenic, talc, antimony, sulphur, lime, etc. There are rich placers, high-grade gold ores and high-grade silver-lead ores near the surface, which the prospector can work himself, large, medium to low-grade veins of gold, copper, silver-lead and zinc ores, and mica, marble and cement, clay, etc., for the capitalist; and a great field for the metallurgist and the scientist. The high mountains with their tunnel sites, the abundance of large timber for lumber, charcoal and other mining purposes; great water power at or near every mine, assuring electricity for power, light and smelting; numerous navigable lakes and streams, together with the good roads policy and the liberal mining laws of the Provincial Government, form a combination which the trained mining man and the careful investor cannot afford to overlook.

MANUFACTURES.

Revelstoke owns its own water, light and power systems. Since electric light and power are developed from water power it can offer very cheap rates on these commodities to any manufacturers who will settle here. There are openings at present for pulp and paper factories, tannery, machine shop, foundry, smelter, brickyard, fruit and vegetable cannery, sugar beet factory and flour mill.

SPORTSMEN.

Revelstoke being in the heart of the best hunting grounds in Canada, affords to those desirous of doing so, the opportunity of meeting the monarch of the mountains, the fearless grizzly or the silvertip bear. The elusive mountain goat will give the keenest sportsman ample opportunity to cultivate patience and endurance, while caribou and deer will repay the hunter for the task of bringing them down. Geese, ducks, partridge, ptarmigan and other wild fowl are found over the whole district. Guides and outfits can be secured here, and any game desired may be reached in from two to three days.

ATTRACTIONS.

To the Alpine climber there are plenty of unconquered snow-clad peaks that offer all the difficulties and dangers of the Swiss Alps. To those who wish to get a glimpse of the rugged grandeur of this sea of mountains, without the danger, there is an auto road which affords this pleasure, or the mountain trail either for foot or on horse-back. When the summit is reached, instead of the usual rocky splendor there extends a level plateau for miles, so level that golf links are contemplated with the building of the chalets.

Arrow Lakes—27 miles south of Revelstoke the Columbia River loses its identity in a chain of lakes. The C. P. R. from Revelstoke connects at Arrowhead with a palatial line of steamers, which lands the tourist in Robson in 10 hours. Arrow Lake has been likened to Lake Geneva. There are sheer, rocky cliffs, the heavily timbered slopes, the fertile valleys with orchards and homes of the settlers dotted here and there, and in the background of it all the eternal snow-clad mountains with the glorious cloud effects, at once the delight and pain of the artist.

Dutchman Caves—Three hours east of Revelstoke on the C. P. R. one can visit these wonderful caves, with their subterranean passages, their century-worn arches, their large chambers whose walls have been worn smooth by the rush of waters as they tore their way into the heart of the mountains. Seven miles from the Caves is the Big Glacier on the C. P. R. A palatial hotel accommodates the tourists who flock from every part of the world to take in the grandeur of the scenery of this summer resort. Swiss guides are ready to show parties the best trails and the best views. Splendid roads and trails have been made and a week here during the hot summer months will never be forgotten.

Halcyon Hot Springs and Hotel—Noted for its marvellous cures in cases of rheumatism.

Revelstoke offers opportunities in many lines. Fruit-growing, cattle-raising and poultry-raising, mining and logging, manufacturing and agencies, good water and cheap power.

Office of Provincial Government Agent, Assessor and Collector, Land Commissioner Revelstoke Land Recording District, Provincial Police Constable, Gold Commissioner Revelstoke Mining Division, Deputy Collector Inland Revenue (Canada) and Collector of Customs. Office of the Revelstoke District Registrar of the Supreme and County Courts, and Quesnel District County Court. Has public and high schools.

ROWLINGS

a station on the B. C. Electric Lulu Island line, New Westminster branch, 6.9 miles from New Westminster and 3.4 miles from Marpole. On North Arm of Fraser River, foot of Nanaimo Street, in South Vancouver.

ROY

a post office and logging district 1 mile from Grassey Bay and 146 miles from Vancouver, in Comox Provincial Electoral District, on Union S.S. Co's Loughborough Inlet-Topaz Harbour route. Nearest telephone at Grassey Bay. Has Coast Mission cruiser "Columbia" services, on call. Local resources: Logging and farming. There is considerable arable land in the Inlet which could be taken up if surveyed, especially on the Apple River at the head of Loughborough Inlet, where there is a valley, unsurveyed, about 20 miles long, one-half mile to three miles wide, black loam silt, not a pebble on it, some of which is beaver meadow land, that would all make the finest kind of farming land—mountain range cutting off the north wind in winter. An ideal place when developed.

Salmon Arm

a city on the southern, or Salmon Arm of Shuswap Lake, on the C. P. R., 313 miles east of Vancouver in Kamloops Provincial Electoral District. It has steamer connections with Kamloops, and is the distributing point for the extensive mining and ranching district up the Shuswap Lake and Seymour River, and throughout the highly developed, fruit-growing district to the south and east. Salmon Arm is the centre of the finest non-irrigated fruit-growing and general farming district in Central British Columbia. Between 75,000 and 80,000 boxes of Wealthy, MacIntosh Red, Northern Spy and other apples are shipped annually, the total turnover for 1918 amounting to $258,537.79. The district obtained first prize and gold medal for district fruit exhibit, and second prize for district agricultural exhibit at New Westminster, 1912, and sixteen prizes at Lethbridge Dry Farming Congress, 1912. The creamery, run on a co-operative basis, made 117,269 lbs. of butter in 1918, being an increase of 17,200 lbs. over the 1917 output. In 1919 the output is expected to reach 200,000 pounds.

The climate is exceptionally fine, and the location of the city, overlooking the lake (altitude 1,150 ft.) is very desirable. Has high and public schools, a frost-proof storage plant with 25 carloads capacity, and Anglican. Presbyterian, Methodist and Roman Catholic churches. Local resources: Fruit-growing, small fruits (strawberries, loganberries and raspberries), dairying, general farming and lumbering. Population: City, 600; district municipality, 3,000.

SALT SPRING ISLAND

a post office on Salt Spring Island (formerly known as Admiral Island) the largest of the islands in the Gulf of Georgia, situated about midway between Vancouver City, Victoria and Nanaimo. The island is about 23 miles in length, with an average width of six miles, the south end being 2 miles north of Saanich Peninsula, and the north end 6 miles east of Chemainus. Other post offices on the island are Ganges, South Salt Spring and Beaver Point, while Salt Spring post office is the central settlement, being 2 miles north of Ganges the chief centre. There are six steamer landings, and steamboat accommodation C. P. R., six days per week, connecting the island with Vancouver, Victoria, Nanaimo and Sidney and with Mayne, Pender, Galiano and Saturna islands. Game, such as grouse, pheasants, ducks and deer, are very plentiful and trout of an excellent quality. Population 1000. Chief resources: poultry-raising, mixed farming, dairying and fruit growing.

SPROAT LAKE
is 17 miles long, with five arms and over 100 miles of coast line. The lake is well known as one of the best fishing places in the province, and the surrounding country, as the hunters' paradise. At the east end of the lake and 7 miles west of Alberni, you will find the Kahloka Hotel, with Josephine E. Wark as proprietress. At the west end of the lake is Clitsea Mountain, at the foot of which is located Mrs. Wark's Clitsea Lodge, a camping place for hunters and fishers. Taylor River empties into the lake at this point. Gasoline launches, row boats and tents can be secured at either Kahloka or Clitsea Lodge. Kahloka is at the west end of the Island Highway, and when the motorist arrives there, he is as far west as it is possible to motor in Canada.

SPROTT
a station on the B.C. Electric Ry., Burnaby Lake line.

SPRUCE BAY
a logging camp and sawmill on Larcom Island, opposite Anyox, across Granby Bay, served by steamers from Prince Rupert, in Prince Rupert Provincial Electoral District. Address mail Spruce Bay, via Anyox post office.
North Coast Spruce Mills Ltd lumber manufacturers

SPUZZUM
a post office and station on the C.P.R., 114 miles east of Vancouver, and 11 north of Yale, in Yale Provincial Electoral District. Population, 90. Has C.P.R. telegraph. Local resources: Mining, fishing, trapping, fruit growing and some timber. Fruit growing in this district has a future, the cherries being particularly fine. The old Cariboo road, which runs through this locality, is now being surveyed, and if opened up will give direct communication with Vancouver. Two gold mines have been opened up recently in vicinity of Siwash Creek, and show high values. An Indian reserve is two miles distant from this point.

STEPHEN
a station on C. P. R. main line, on Alberta boundary. Has C. P. telegraph office. Stephen is near the top of Kicking Horse grade; a small lake in front of the station is "the head" of the Kicking Horse River. A small stream called Cataract Creek enters the lake at the east end. Catarac Valley is one of the most beautiful valleys in British Columbia, at the very summit of the Rockies, and leads to Lake O'Haro, 7 miles south of Hector, and Lake McArthur, 12 miles, reached by pony trail. A great many tourists visit these lakes each summer. It is at Lake O'Haro that the Alpine Club of Canada have their permanent camp, where mattresses, stoves and dishes are available to visitors. The C. P. R. agent can supply ponies, guide and food for Alpine climbers. The famous Spiral tunnels, in which trains make a complete turn inside of Mt. Cathedral and again in Mt. Ogden, are just 3 miles west of Hector. Address mail via Field PO.

SUMAS JUNCTION

a junction on the C.N. Ry., 5 miles west of Chilliwack, near Sardis, in Chilliwack Provincial Electoral District. No residents. Chilliwack is nearest post office.

Summerland

a post office and town on Okanagan Lake, 7 miles from Penticton, 55 miles from Okanagan Landing, and 1 mile from West Summerland, on the C.P.R. Kettle Valley line, in South Okanagan Provincial Electoral District. It is the nearest town in Okanagan Valley to the coast, with daily train service over the Kettle Valley Ry., and owns its electric light, irrigation and domestic water plants. The telephone system, which is a very fine one, is owned by a local company. It has Dom Govt. and C.P.R. telegraph offices, daily steamer and express service, Anglican and Union churches, and consolidated schools. The rural municipality of Summerland comprises about 28 square miles, and is a large producer of soft fruits and vegetables, seeking an early market, and apples. The Experimental Farm is situated at the southern boundary. Mixed farming can be carried on successfully a few miles back, while lumbering is now being carried on largely for the production of box shooks. The climate is excellent—dry, clear and sunny. Good fishing and shooting. Population, 1,800. See also West Summerland. C. W. Lees, secretary Board of Trade.

UPPER NAAS

a settlement 40 miles up the Naas River from Mill Bay Cannery wharf, reached by gasoline launches, and lies immediately inside the Coast Range, in a most beautiful valley, in Atlin Provincial Electoral District, 170 miles north east of Prince Rupert. The valley at the north of the Indian reserve is about 7 miles wide and extends about 50 miles north, but is mostly held by timber limits. The land in the valley is excellent for farming, potatoes, root crops, vegetables, fruits; Timothy and clover grow abundantly, and wild berries of all kinds and wild crab apples are found in the woods, but until a railroad is put through to the Groundhog coal claims, at the head of the valley, there is no transportation, the residents depending entirely upon the Indians for transporting supplies. Has Govt. telegraph and Anglican church mission. Address mail via Mill Bay post office.

Vancouver is Canada's most important Pacific port. It commands the Western Canadian route to Russia, the Orient, Australia and New Zealand. It is in immediate touch with the grain fields of Western Canada and, via the Panama Canal, affords the shortest route for shipments to Europe, South America and Mexico. In addition, it possesses one of the finest natural harbors in the world—open for shipping throughout the year—having more than 28 miles of waterfrontage and over 20 miles of deep water anchorage.

The equipment of the harbor for handling shipping of all kinds is being steadily increased. It has been announced that the Dominion Government is going to spend $5,000,000 in Vancouver this year on harbor development, consequently we will be in a better position to handle national traffic. Within recent years the Dominion Government has built probably be the terminus of at least half a dozen railways.

Vancouver is served by many steamship lines and is the export point for the Grand Trunk and the Fraser Valley railways. The Canadian National railways intend to provide steamship service to the Orient and Australia, similar to that of the C.P.R.

Vancouver proves her right to be called the commercial centre of British Columbia, for a glance at the business statistics during the past year exemplifies this. The bank clearings, customs returns, building permits, postal returns and the assay office returns for 1918 aggregate a total of $560,228,399, which is $128,596,679 more than for 1917.

Of the 51 banks in Vancouver, $125,000 is the increase in their clearings for 1918 over 1917. There are 350 firms in the city, with an annual payroll of approximately

Vancouver

Vancouver is situated on the Gulf of Georgia and on the north arm of the Fraser River. It was incorporated in 1886, but was almost completely destroyed by fire in the same year, so that the city is actually only 33 years old. In that time it has become the fourth city of Canada, an industrial centre and an important railway terminus. This is the result of the development of Vancouver's natural resources, a more general knowledge abroad of the city's attractions, and the increased transportation facilities by land and water.

Vancouver is Canada's most important Pacific port. It commands the Western Canadian route to Russia, the Orient, Australia and New Zealand. It is in immediate touch with the grain fields of Western Canada and, via the Panama Canal, affords the shortest route for shipments to Europe, South America and Mexico. In addition, it possesses one of the finest natural harbors in the world—open for shipping throughout the year—having more than 28 miles of waterfrontage and over 20 miles of deep water anchorage.

The equipment of the harbor for handling shipping of all kinds is being steadily increased. It has been announced that the Dominion Government is going to spend $5,000,000 in Vancouver this year on harbor development, consequently we will be in a better position to handle national traffic. Within recent years the Dominion Government has built one of the best equipped wharves on the Pacific Coast and erected a terminal grain elevator. Shipping is constantly increasing and since the war is over and as conditions become normal, the amount of tonnage entering the port will no doubt be doubled.

Vancouver is the western terminus of the Canadian Pacific and the Canadian National railways, as well as the Great Northern and Northern Pacific railways. The Kettle Valley and Pacific Great Eastern railways also operate here. Within a few years Vancouver will probably be the terminus of at least half a dozen railways.

Vancouver is served by many steamship lines and is the export point for the Grand Trunk and the Fraser Valley railways. The Canadian National railways intend to provide steamship service to the Orient and Australia, similar to that of the C.P.R.

Vancouver proves her right to be called the commercial centre of British Columbia, for a glance at the business statistics during the past year exemplifies this. The bank clearings, customs returns, building permits, postal returns and the assay office returns for 1918 aggregate a total of $560,228,399, which is $128,596,679 more than for 1917.

Of the 51 banks in Vancouver, $125,000 is the increase in their clearings for 1918 over 1917. There are 350 firms in the city, with an annual payroll of approximately

$12,000,000. One of our largest industries is shipbuilding which, during the war employed about 5,000 men, and on which many millions of dollars were spent in ship construction. About 2,000 men are now employed in the shipyards and this work will continue for many months yet.

Other industries employing thousands of people include lumbering, foundries, sugar refineries, printing and publishing, food products, clothing, paper and pulp, and wholesales. Vancouver is making rapid strides toward becoming a city of factories.

A large area of reclaimed land—Granville Island, a few blocks from the retail business district of Vancouver—is providing excellent sites for many industries. These sites are served with trackage, wharfage, electric power, water, gas and sewers. They may be leased for 66 years at rates varying from $500 to $1,500 per acre per year. Other sites equally as desirable may be secured on Burrard Inlet and in the suburbs.

The City of Vancouver exempts from taxation the machinery of factories and levies a rate of 50 per cent. of the assessed value of improvements. Some of the suburban municipalities levy no tax whatever on improvements, merely on the value of the land.

There are many opportunities in Vancouver for manufacturers along special lines, such as mineral smelters and refineries, lumber and fish products, woollen mills, rubber factory, machinery, clothing, chemicals and canneries. Iron, coal and other minerals, building material and timber are available in large quantities and a great many of the raw materials from other parts of the Province and from all the countries bordering on the Pacific, can be brought in very cheaply by boat; also, raw materials and partly manufactured goods from the Atlantic, via the Panama Canal.

Within a few miles of the city, 500,000 horsepower may be generated from waterfalls; 200,000 horsepower is now available as electrical energy.

The city controls its water system, which is supplied from mountain streams. The present daily supply is 36,000,000 gallons, with an additional 40,000,000 gallons in the city reservoir and a total of 100,000,000 gallons available. The water of Vancouver is almost chemically pure and this fact is of great advantage to a number of manufacturers. Further, the city gives a very low rate to manufacturers.

Vancouver is gradually becoming a Mecca of tourists, for the climate is without extremes either of heat or cold, and is as temperate as that of England. This moderate temperature is caused chiefly by the protecting mountains, together with the breezes blowing from the ocean and warmed by the Japan Current. So uniform is the general temperature that outdoor work can be carried on the year round. Blizzards are unknown as they are deflected to the country east of the Rockies. In summer our weather is almost ideal as the temperature rarely rises above 90 degrees, with a breeze generally stirring and with cool refreshing nights.

The population of Greater Vancouver is 175,000; without the suburbs, 109,250. Vancouver has 61 miles of paved streets, 211 miles of concrete walks, 195 miles of sewers and 317 miles of water mains. It is served with 113 miles of street car tracks and these connect with 156 miles of interurban railway.

The City of Vancouver has received a full share of scenic as well as climatic blessings. Within an easy walking distance from the centre of the city is Stanley Park—a natural park containing many points of interest—the zoo, Siwash Rock, Shakespeare's gardens, Pauline Johnson's grave, the Seven Sisters, etc. During the summer months, band concerts are given every Sunday in this park.

At different points throughout the city are twenty-three smaller parks, containing tennis courts, ballgrounds and gardens. From one of these parks, Little Mountain, one can obtain a splendid panoramic view of the city and the low-lying lands of the Fraser Valley.

Right in the heart of the city, too, are two splendid bathing beaches, which are the daily resort of thousands of people in the summer time. An open air vaudeville performance is given at English Bay during the summer months.

Radiating from the centre of the city are many splendid motor drives—Marine Drive, twenty miles in length passes along the shore line of the Gulf of Georgia, English Bay and through the suburbs of Point Grey, North Vancouver and West Vancouver.

Across the Inlet, within easy access from North Vancouver, are Lynn and Seymour creeks and Capilano Canyon. These mountain rivers, unsurpassed in beauty and grandeur, are the source of Vancouver's water supply. At one or two points, suspension bridges have been built across the roaring waters. One of these bridges is 450 feet in length and 200 feet in height.

For cruising, the land-locked waters of Howe Sound and Burrard Inlet offer many advantages. Within a few hours' ride from Vancouver are the summer resorts of Bowen Island, Wigwam Inn, Horseshoe Bay, Squamish, Sechelt, etc. During the summer months, steamers run daily to these points and many special excursion trips are also given.

Vancouver is becoming not only a commercial and industrial centre, but a desirable residential city as well. In the past it has established a record for commercial and industrial growth and in the future greater prosperity and advancement will attend this metropolis of British Columbia.

J. R. DAVISON,
Industrial Commissioner.

Vancouver, B.C.

Electric Power

for Manufacturing Purposes

The B. C. Electric Railway Company has available 84,000 horsepower of electrical energy in and around Vancouver, and maintains a complete distribution system throughout a territory 80 miles long and 20 miles wide.

Electric Railway, Light, Power and Gas Service

Trackage is offered on 156 miles of electric interurban lines. Manufacturers should locate on the B. C. Electric system.

We invite consultation and inquiry.

B.C. Electric

SERVICE

Vancouver, Victoria, New Westminster, North Vancouver, Point Grey, South Vancouver, Burnaby, Chilliwack, Abbotsford, Coquitlam, Port Moody, White Rock, Langley, Cloverdale and elsewhere

"THE BRITISH COLUMBIA FARMER"

(Formerly Fruit and Farm Magazine)
Official Organ of the United Farmers of British Columbia

A practical paper for practical farmers. Carefully edited—specially adapted to British Columbia conditions, covering every phase of agriculture in the province. Special departments devoted to General Farming, Stock-raising, Dairying, Fruit-growing, Poultry, Gardening, Bee-keeping, etc.

Each issue contains timely articles from leading agriculturists, each a specialist in his own particular line, illustrating approved methods for increasing production, minimizing labor, expense and loss, and promoting efficiency in every department of agricultural effort.

THE BRITISH COLUMBIA FARMER has the official recognition and hearty support of all the leading agricultural organizations in British Columbia, and contains news of the doings of the various local branches in every section of the province.

The paper that is read by all the best farmers, because it is interesting, up-to-date and helpful—the paper that is used by the leading advertisers because it brings results.

Subscription price, $1.00 per year.

Finest Transfer Equipment in Vancouver

HOUSEHOLD FURNITURE

Moved--Packed--Shipped--Stored

MOVING— in padded "Car-Vans"—auto and horse-drawn.

PACKING— for storage or shipment, by experts, using only clean, new, sanitary materials.

SHIPPING— to any point in the world by our "Pool-Car" System, which saves the shipper from 25 to 40 per cent. in freight charges.

STORAGE— We have the finest storage warehouses in Canada—Absolutely Fireproof—Private Locked Compartments—"Silver Vaults"—"Safety Deposit Boxes"—"Piano Room"—"Special Trunk Sections," etc.

Every facility for the proper handling of carload shipments (or less) for Storage, Cartage, Forwarding or Distributing

FARM AND FIRESIDE

AND B. C. BEEKEEPER

W. C. Harris, F.R.H.S., Editor and Publisher

THE GREAT PROSPERITY OF THE RURAL POPULATION OF BRITISH COLUMBIA

invites you to seek for more business in this prosperous portion of the Dominion. British Columbia is coming to the front as a productive province.

Its circulation concentrated on the rich city and rural districts, offers a medium whereby you can reach this population. It is the most helpful magazine published in British Columbia.

Ask your agency to put FARM AND FIRESIDE near the head of your list of Canadian farm and horticultural papers, and prove the buying power of its subscribers by placing an advertisement in its columns.

The garden section is a strong, reliable and thoroughly practical feature.

Published first week in each month. $1.00 a year.

¶ THE PROPER WAY to estimate the value of your range is to divide the present purchase price by the years of service usually given by a "Gurney-Oxford" Range, and the result will be less than the cost of one sack of flour per year.

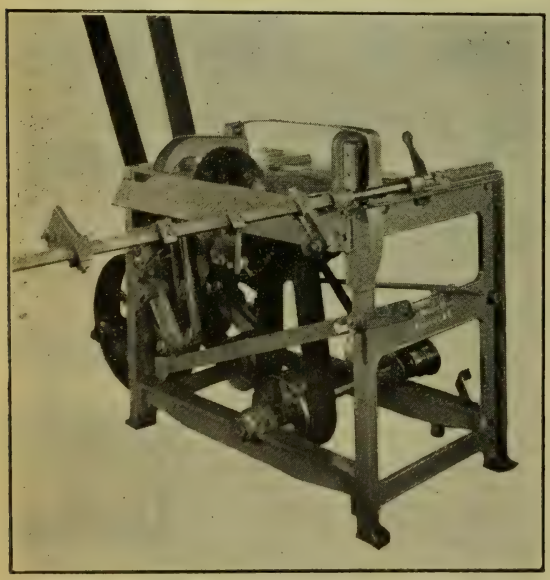
¶ The high standard of the "Gurney-Oxford" Ranges is recognized throughout the Dominion.

¶ Write us for a catalogue and prices, which will be sent at once and without any obligation.

THE GURNEY FOUNDRY CO., LTD.

VANCOUVER, B. C.

Agents in all principal cities and towns in British Columbia



HALL'S

High-Speed Parallel

CUT-OFF SAW

BOTH SINGLE AND AUTOMATIC ACTION

This saw is the result of years of close study and attention to the requirements of planing mills, sash, door and box factories. It stands in a class by itself, and will give the maximum output and the greatest ease in operation.

SATISFACTION GUARANTEED

We are also introducing a line of modern land-clearing machinery. Get particulars.

Wholesale Magazines, Periodicals and Books

Christmas Cards and Christmas Stationery, also Greeting Cards for all Seasons

AUTO RADIATOR AND LAMP CO.

Battered, crushed, and seemingly hopeless scrap-heap wrecks, radiators, lamps, and other light metal parts come to us to be reconstructed to original shapes, appearance and utility, under our six-months guarantee.

Owners of cars should refrain from tinkering with faulty or leaking radiators, as the tubes are so thin and the solder applied so sparingly that an attempt to solder one leak may start others.

Instructions: Remove all loose fittings, attach label bearing your name and address, and send part, carriage paid. Send full instructions by post.

British Columbia Retailer

(Succeeding The Retail Grocers' Review)

The Retailer goes to all classes of retail stores in the province of British Columbia. It is owned and published by the Vancouver Retail Grocers' Section of the Retail Merchants' Association of Canada, is issued on the 15th of the month, and advertising rates may be had on application. It is in its tenth year of publication and is the only retail association journal published in British Columbia.
